

Posting a Supplier Invoice for Consumable Materials

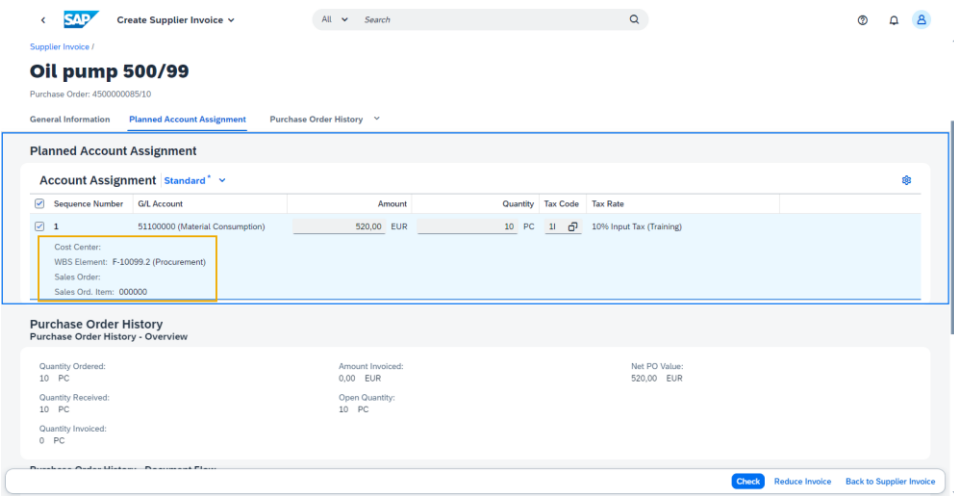

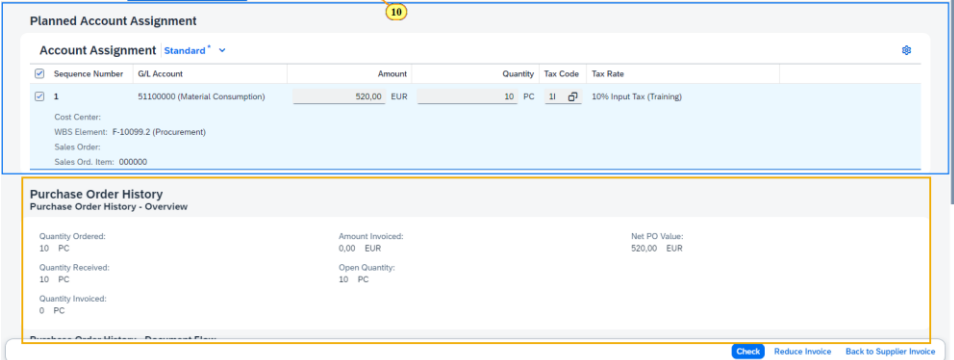

Explanation	Screenshot
 In this demonstration, we will show you how to create a supplier invoice with reference to a purchase order for consumption using the <i>Create Supplier Invoice</i> app. The following data are used: • Company Code: 1010 • Gross Invoice Amount: EUR 714.95 • Reference: IV-240307 • Purchase Order: 4500000085 <u>Prerequisites for the following demonstration</u> A purchase order for which a goods receipt has been posted but not yet settled. In our example, this is the purchase order 4500000085, which contains two items with account assignment.	

Explanation	Screenshot
 To open the <i>Create Supplier Invoice</i> app, first you have to navigate to the <i>Supplier Invoice Processing</i> tile group. 1. To view additional tile groups, choose the <i>arrow</i>.	
2. Choose <i>Supplier Invoice Processing</i>.	
3. To open the app, select the <i>Create Supplier Invoice</i> tile.	

Explanation	Screenshot
4. Check the proposed <i>Company Code</i>. In this example, the value 1010 is correct and does not need to be changed.	
5. In the <i>Gross Invoice Amount</i> field, enter 714,95 and press Enter.	
 In the <i>Basic Data</i>, also fill in the following fields: • <i>Invoice Date</i>: Enter the invoice date of the supplier invoice. Here, the date is March 7, 2024. • <i>Reference</i>: Enter the supplier's invoice number. Here, the	

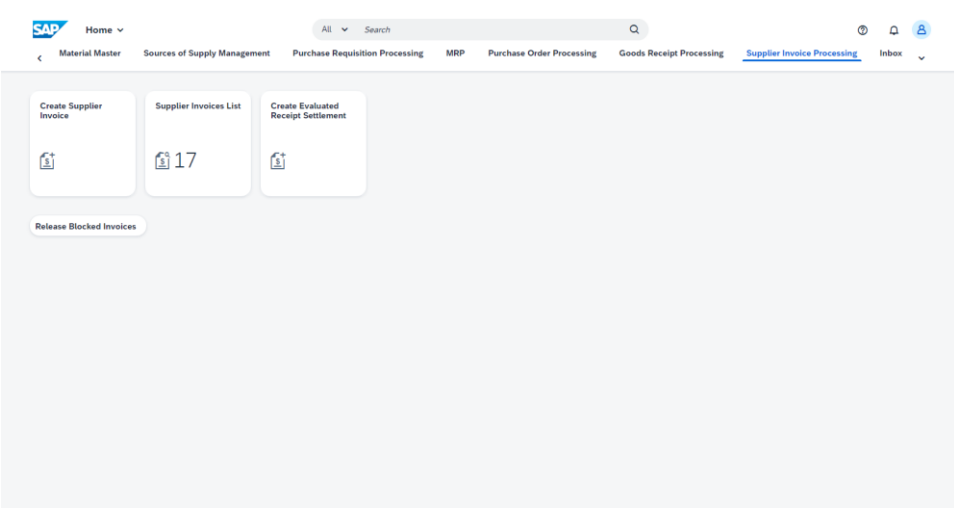

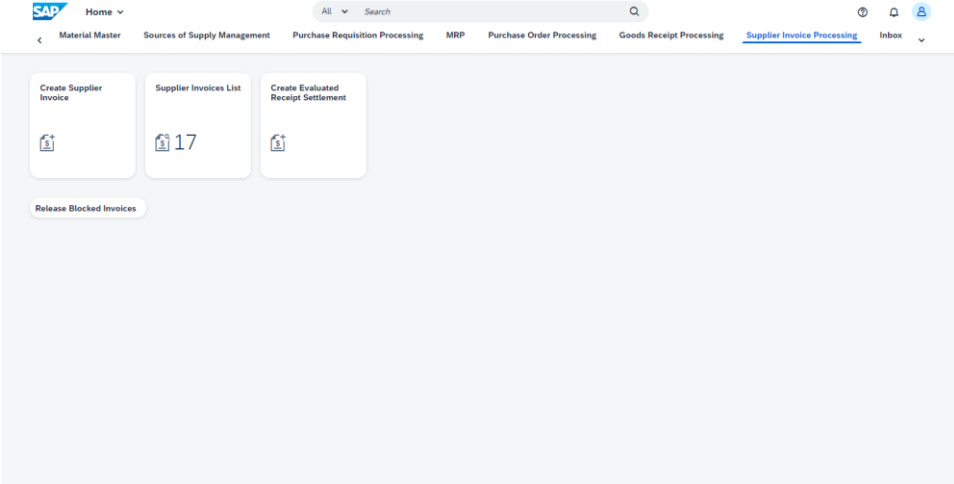

Explanation	Screenshot
number is IV-240307. • <i>Posting Date</i>: This date is usually prefilled by the system with the current date.	
6. In the <i>Purchase Order/Scheduling Agreement</i> field, enter 4500000085 and press Enter.	
7. To scroll to the items copied from the purchase order, choose <i>Purchasing Document References</i>.	

Explanation	Screenshot
i Note that the invoice item overview does not show that the materials have been procured for consumption. However, this information can be found in the item details. As an example, let's take a closer look at item 1. 8. To view the item details, choose the arrow in the line.	
9. Choose <i>Planned Account Assignment</i>.	

Explanation	Screenshot
i In this example, the <i>WBS Element F-10099.2</i> (Procurement) has been assigned to the purchase order item.	
i In addition to the account assignment data, information about the purchase order history is also displayed in the item details of the invoice item. The <i>Purchase Order History</i> area is divided into the sections <i>Overview</i> and <i>Document Flow</i>. 10. To scroll to the <i>Purchase Order - Document Flow</i> section, choose the arrow.	

Explanation	Screenshot
11. Select <i>Purchase Order History - Document Flow</i> .	
 The <i>Document Flow</i> displays all documents associated with the purchase order item. These documents can be accessed by selecting the document number. 12. To close the item details, choose <i>Back to Supplier Invoice</i>.	
 Before posting an invoice, the data entered can be checked for errors. 13. Choose <i>Check</i>.	

Explanation	Screenshot
The system message confirms that the invoice data has been successfully checked. Also note that the balance at the top left of the screen is zero.	
14. To complete the entry of the invoice, choose <i>Post</i>.	
After posting the supplier invoice, a message appears with the number of the invoice document created. The specific document number is displayed in combination with the year of the posting date. 15. To close the app, confirm the question whether you want to	

Explanation	Screenshot
create a new supplier invoice with No.	
 You have now seen how to enter a supplier invoice with reference to a purchase order and how to display account assignment data during invoice entry. This concludes the demonstration.	 The screenshot shows the SAP 'Supplier Invoice Processing' interface. The top navigation bar includes 'Home', 'Material Master', 'Sources of Supply Management', 'Purchase Requisition Processing', 'MRP', 'Purchase Order Processing', 'Goods Receipt Processing', and 'Supplier Invoice Processing' (which is highlighted). Below the navigation bar, there are three main tiles: 'Create Supplier Invoice' with a plus icon, 'Supplier Invoices List' with a list icon and the number '17', and 'Create Evaluated Receipt Settlement' with a plus icon. At the bottom, there is a 'Release Blocked Invoices' button.
	 This is a duplicate of the screenshot in the previous row, showing the same SAP 'Supplier Invoice Processing' interface with the same navigation bar, tiles, and buttons.
