

Posting a Goods Receipt into the Warehouse

Explanation	Screenshot
 In this demonstration, we will show you how to post a goods receipt with reference to a purchase order using the <i>Post Goods Receipt for Purchasing Documents</i> app. You will also see how the goods receipt updates the warehouse stock of the material. The following data is used: • Material: A500-99 (Oil pumps) • Delivery Note: DN240304 • Purchase Order: 4500000066 <u>Prerequisites for the following demonstration</u> Purchase order (PO) for stock material with one item for material A500-99 (order quantity 100 PC for plant 1010). In this example it is the PO with number 4500000066.	

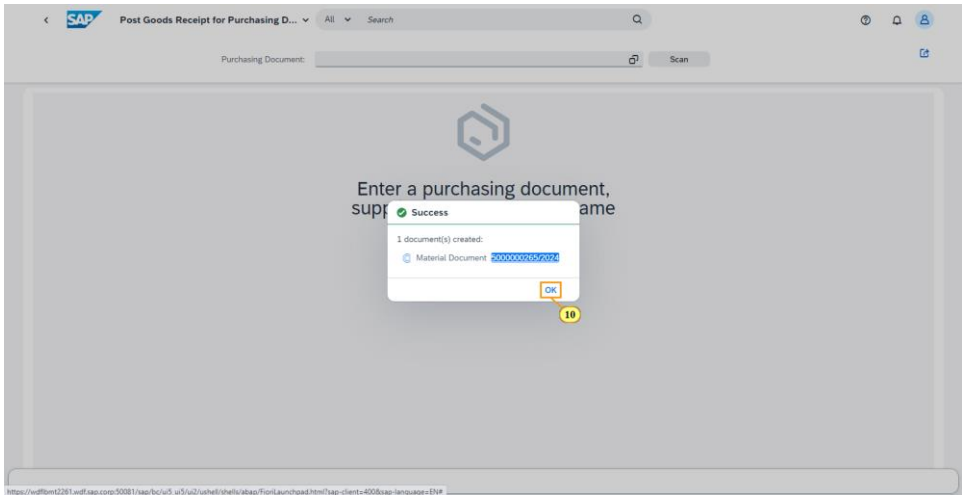

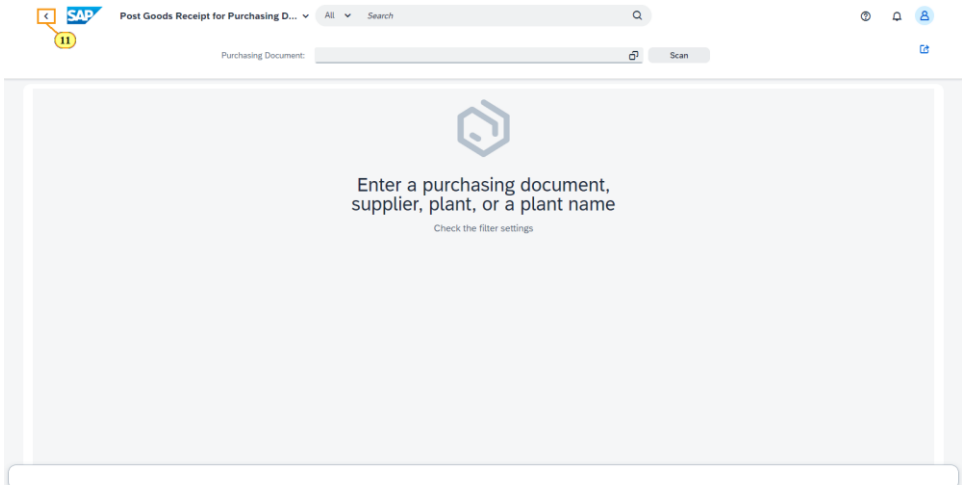

Explanation	Screenshot
Before the goods receipt for the purchase order is entered, we want to check the warehouse stock of material A500-99. To do this, we use the <i>Stock - Single Material</i> app. Like the <i>Post Goods Receipt for Purchasing Document</i> app, the <i>Stock - Single Material</i> app belongs to the <i>Goods Receipt Processing</i> tile group.	
1. To open the app, select the <i>Stock - Single Material</i> tile.	

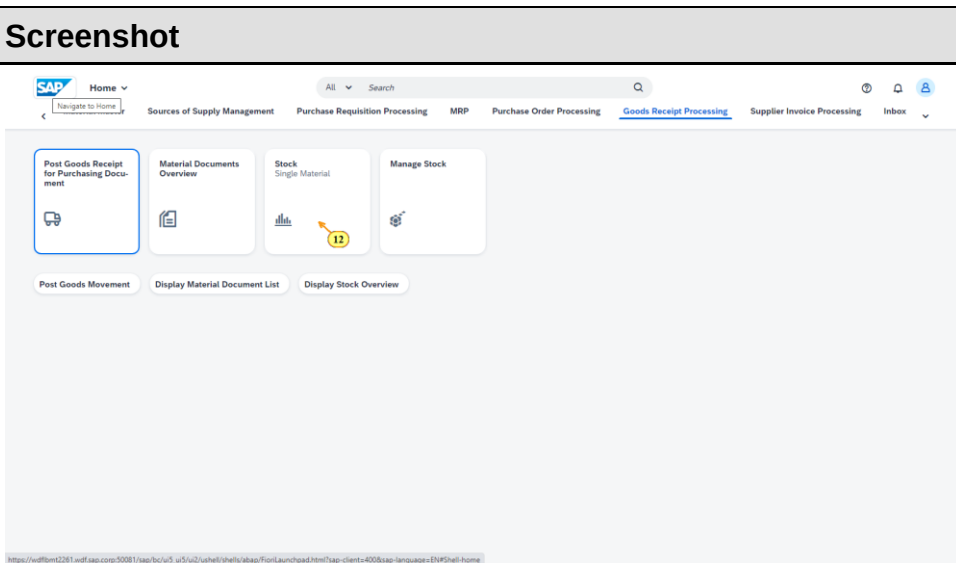

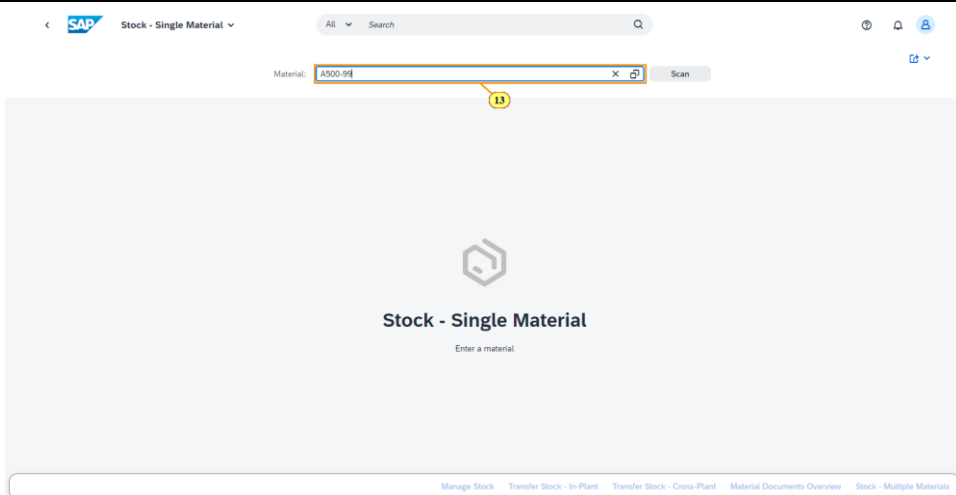

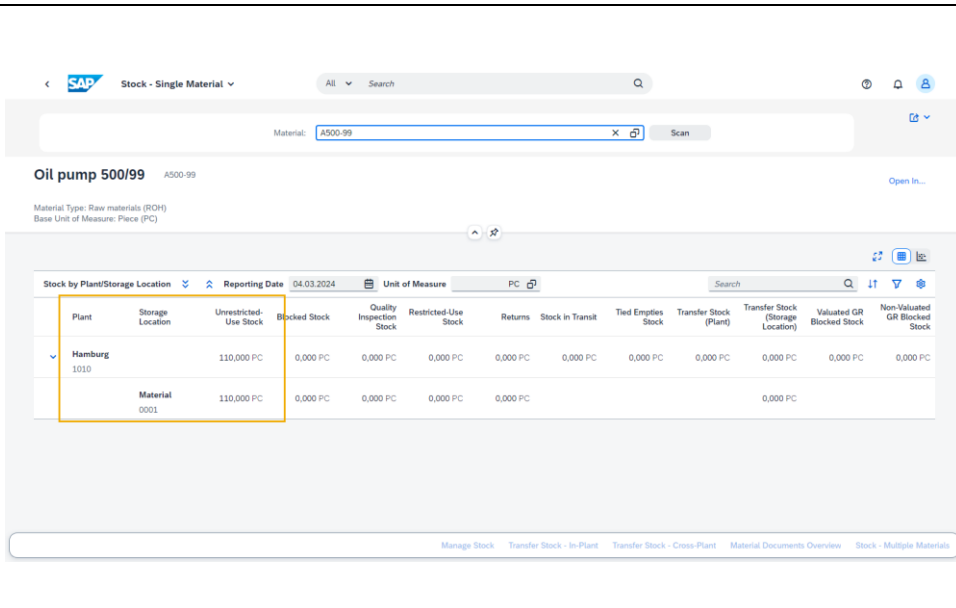

Explanation	Screenshot
2. In the <i>Material</i> field, enter A500-99 and press Enter.	
i As you can see from the list, 10 pieces (PC) of material A500-99 are currently stored in plant Hamburg (1010), storage location Material (0001) in the unrestricted-use stock. 3. To leave the app, choose the back-arrow.	
i In the next step, the goods receipt for purchase order 4500000066 is entered. 4. To open the app, select the <i>Post Goods Receipt for Purchasing Document</i> tile.	

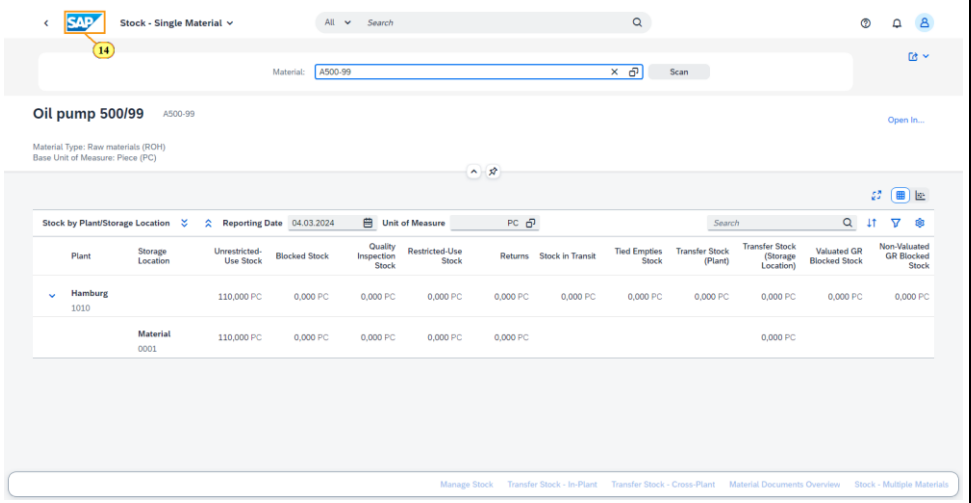

Explanation	Screenshot
 To start the goods receipt process, enter the number of the purchase order for which you wish to post the goods receipt. If you do not know the purchase order number, you can also enter the name of the supplier in the <i>Purchasing Document</i> field. The system then proposes a list of open purchase orders for this supplier, from which you can select the relevant purchase order. In this example, we can directly enter the purchase order number. 5. In the <i>Purchasing Document</i> field, enter 4500000066 and press enter.	

Explanation	Screenshot
 When you enter a goods receipt, you typically need to enter or check the following values: • Number from the supplier's delivery note • Selection of the items for the delivered materials • Delivered quantity (per item) • Storage location in which the material is to be stored (per item) In this example, the entire ordered quantity of 100 PC for material A500-99 was delivered with delivery DN-240304 and is to be stored in storage location 0001. 6. In the <i>Delivery Note</i> field, enter DN-240304.	 The screenshot shows the SAP 'Post Goods Receipt for Purchasing Document' interface. The 'Delivery Note' field is highlighted with a yellow box and a red circle containing the number 6. The 'Items' table shows one item: Oil pump 500/99 (A500-99) with an open quantity of 100,000 PC and a delivered quantity of 100,000 PC. The storage location is Hamburg (1010).

Explanation	Screenshot
7. To select a storage location, open the input help.	
Note that the stocks for the material are also displayed in the <i>Select Storage Location</i> window. 8. Select storage location <i>Material 0001</i>.	
9. To finalize the goods receipt, choose <i>Post</i> .	

Explanation	Screenshot
 After you have posted the goods receipt, you receive a message that a material document has been created. The specific document number is displayed in combination with the year of the posting date. 10. To confirm the success message, choose <i>OK</i>.	
11. To return to the previous screen, choose the back-arrow.	

Explanation	Screenshot																																							
 As the last step of this demonstration, we want to check the stock of material A500-99 again. 12. To open the app, select the <i>Stock - Single Material</i> tile.																																								
13. In the <i>Material</i> field, enter A500-99 and press enter.																																								
 After completion of the goods receipt (GR), the unrestricted-use stock of the material has increased by the goods receipt quantity of 100 pieces. - Quantity before GR: 10 pieces - Quantity after GR: 110 pieces	 <table><thead><tr><th>Plant</th><th>Storage Location</th><th>Unrestricted-Use Stock</th><th>Blocked Stock</th><th>Quality Inspection Stock</th><th>Restricted-Use Stock</th><th>Returns</th><th>Stock in Transit</th><th>Tied Empty Stock</th><th>Transfer Stock (Plant)</th><th>Transfer Stock (Storage Location)</th><th>Valuated GR Blocked Stock</th><th>Non-Valuated GR Blocked Stock</th></tr></thead><tbody><tr><td>Hamburg</td><td>1010</td><td>110,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td></tr><tr><td colspan="2">Material 0001</td><td>110,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td>0,000 PC</td><td></td><td></td><td></td><td>0,000 PC</td><td></td><td></td></tr></tbody></table>	Plant	Storage Location	Unrestricted-Use Stock	Blocked Stock	Quality Inspection Stock	Restricted-Use Stock	Returns	Stock in Transit	Tied Empty Stock	Transfer Stock (Plant)	Transfer Stock (Storage Location)	Valuated GR Blocked Stock	Non-Valuated GR Blocked Stock	Hamburg	1010	110,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC	Material 0001		110,000 PC	0,000 PC	0,000 PC	0,000 PC	0,000 PC				0,000 PC
